PartSmart DMS Integration FAQ

Do I have to have PartSmart installed?
Yes, PartSmart must be fully installed on your computer.

What do I gain through this integration?
Inventory control! By integrating PartSmart with you DMS, your parts list, customers, and invoices are synchronized and controlled directly through your dealer management system (DMS).

Does ARI charge for this integration?
ARI does not charge for this integration.

Does my DMS charge for this integration?
Your DMS may charge a fee for the license or integration.

### Who can I contact to set up this integration?
You should contact your DMS representative to set up this integration.

Can ARI set up this integration?
No, ARI cannot set up this integration.

How do I know if I have the integration?
Open PartSmart. Select Utilities > PartSmart Options. In the lower right-hand box, you should see the title Business System. If your business system shows up in the box, your integration is set up!

How do I know if my DMS integrates with PartSmart?
PartSmart integrates with Ideal, c-Systems, CDK, Lizzy, Charter, BiT, and many other major dealer management systems. To find out if your DMS integrates with PartSmart, please fill out the form on www.arinet.com/integrate and we will contact you with more information.
