

Search Panel

The Search Panel allows you to search for models, parts, and literature all in one search field across all the catalogs you have access to. Model, part, and literature results display in one easy to access results panel. Selecting a model or part search result will take you to its detail panel.

The screenshot shows the PART SMART Search Panel interface. At the top, there is a navigation bar with the PART SMART logo and icons for Search, Product Line, Diagram, Pick Lists, and News. Below the navigation bar, there is a search input field with a dropdown menu for "All Catalogs" and a search button. The search term "Spyder F3" is entered in the search field. Below the search field, there are three columns of results: Models, Parts, and Literature. The Models column lists "Ski-Doo / Sea-Doo / Can-Am" and "Spyder F3 SE6, 2015". The Parts column lists "704904825 | Spyder F3S Decal Magnesium" and "704904667 | Spyder F3 Decal Vegas White". The Literature column shows "No results for the specified search".

Product Line Panel

The Product Line navigation is especially useful when you are not sure of the exact model name but know what product line the item you are searching for belongs to. When you select this panel, you will be presented with a list of the manufacturer's product lines, which can be broken down further into more specific criteria like model year and product class.

The screenshot shows the PART SMART Product Line Panel interface. At the top, there is a navigation bar with the PART SMART logo and icons for Search, Product Line, Diagram, Pick Lists, and News. Below the navigation bar, there is a dropdown menu for "Ski-Doo / Sea-Doo / Can-Am". Below the dropdown menu, there is a list of product lines: "ATV", "Can-Am On-Road", "Sea-Doo Boats", "Sea-Doo Pontoons", and "Sea-Doo Watercraft". Each product line has a right-pointing arrow next to it.

Model Detail Panel

The model detail panel contains all the information for a model in one panel. At the top of the panel, you can search for parts within the model and filter the panel content. You can view model attributes, literature, and notes, browse to select the desired diagram, or select commonly used parts from the convenient OEM quick reference or fast-moving parts lists.

Part Detail Panel

The part detail panel contains all the information for a part in one area like notes and where used information. If Supersession/Prior information is available for a part, they will display under the current part in the Part Options section followed by supersessions and lastly the priors at the bottom of the list. Clicking on the 'Add' button will add that part to the pick list.

Diagram Panel

The Diagram panel consists of two main areas: the diagram and the parts list. You can click on a reference number hotspot in the diagram or on a part card to expand the card and see the part's location on the diagram. The part card will show the current part on the diagram first, followed by any supersessions and then priors. Clicking on the 'Add' button will add the selected part to the pick list.

The screenshot shows the PART SMART interface for a cooling system diagram. The diagram includes various components like hoses, pumps, and a radiator, each labeled with a reference number. A sidebar on the right displays the title '001 - COMMANDER 800R EFI - INTERNATIONAL, 2019' and offers options like 'Diagrams', 'Print Diagram', and 'Report an Issue'. Below this, there's a 'Filter By' section and a list of parts. The currently selected part is a radiator with part number 709200395, showing a quantity of 1 and a price of \$319.99. Other radiator options are also listed below it.

Pick List Panel

The picklist holds all the parts you added from the search results panel, fast moving parts, and part cards in one centralized list. From here you can update quantities, print, email, save, or export the pick list.

The screenshot shows the 'Review Your Pick List' panel. It features a table with one item: a radiator (part number 709200395) with a price of \$319.99. Below the table, there's a 'Promo Code' field with an 'Apply' button. A 'Total' row shows the price of \$319.99. There are also 'Pick List Actions' including a print icon, an 'Update Pricing' section with a 'Catalog' button, and an 'Email' section with 'Send' and 'Save' buttons. A 'You May Also Need' section on the right indicates that there are no recommended parts at this time.

PartSmart CD Licensing and Downloads

PartSmart CD license and data downloads can be accessed from your account. Click on the profile icon in the lower right corner and select 'Advanced Settings'

Next, select the 'PartSmart CD' option from the menu.

From this screen, you can download the PartSmart CD application and any catalogs that you subscribe to and copy the license keys as needed to enter into PartSmart CD when installing.
